

# Re discussions w/ Ron Krasnow

Note to File Re PM 1268

3-4-92

- US amendment has been sent
- Australia - Ravi's comments faxed  
(Mar 12) Ron had already conferred w/ John & consensus was that we'd have to live with the interim response already filed
- EPO - Ravi is working on (Lux ref) will call  
(Mar 29) Ron asap
- Canada - sent prior art details to John
  - Discussed vol. am. w/ Ron - John had indicated verbally that any limitations to apparatus might transfer to process (& we made some lim. to solvents in US)
  - decided it would be better since (a) US approach not entirely clear in view of Newton & Newer refs and (b) possibility of confusing the examiner on claims with the technicalities re apparatus vs method - claims in foreign NOT to amend now Ron has responded

to need set of claims as filed in Canada
- Finland - Ron is responding
